

Leather Mobile Earrings with Tassels

DESIGNED BY
Arounna Khounnoraj

AROUNNA KHOUNNORAJ'S DESIGNS exude a unique, laid-back elegance—I find that many of her pieces feel equally at home at a formal event or on vacation. These earrings showcase her balanced aesthetics and inventiveness: They're made completely from scraps of leather and yarn from her Toronto, Canada, studio, Bookhou. Leather scraps can be cut into shapes that you can mix and match to create a variety of styles. If you prefer not to use leather, oven-bake clay or papier mâché are great alternatives.
